# MONTHLY AVERAGE FRISK® SCORE

CreditRiskMonitor's proprietary FRISK® score signals that Europcar Mobility (EPA: EUCAR) has a 10 to 50 times greater risk of bankruptcy than the average public company.

Oversupply of car rentals and waning demand led to sustained pricing pressure, which cut total gross profits by about 15% YOY.

Moody's Investors Service changed the outlook from stable to negative given debt and interest coverage would remain weak.

Moody's downgrades Europcar to Caa2 over prospects of a potential debt restructuring due to a slow anticipated recovery.

Bond agency ratings from Moody’s, Fitch, & DBRS Morningstar

## Crowdsourced CreditRiskMonitor® Usage Data

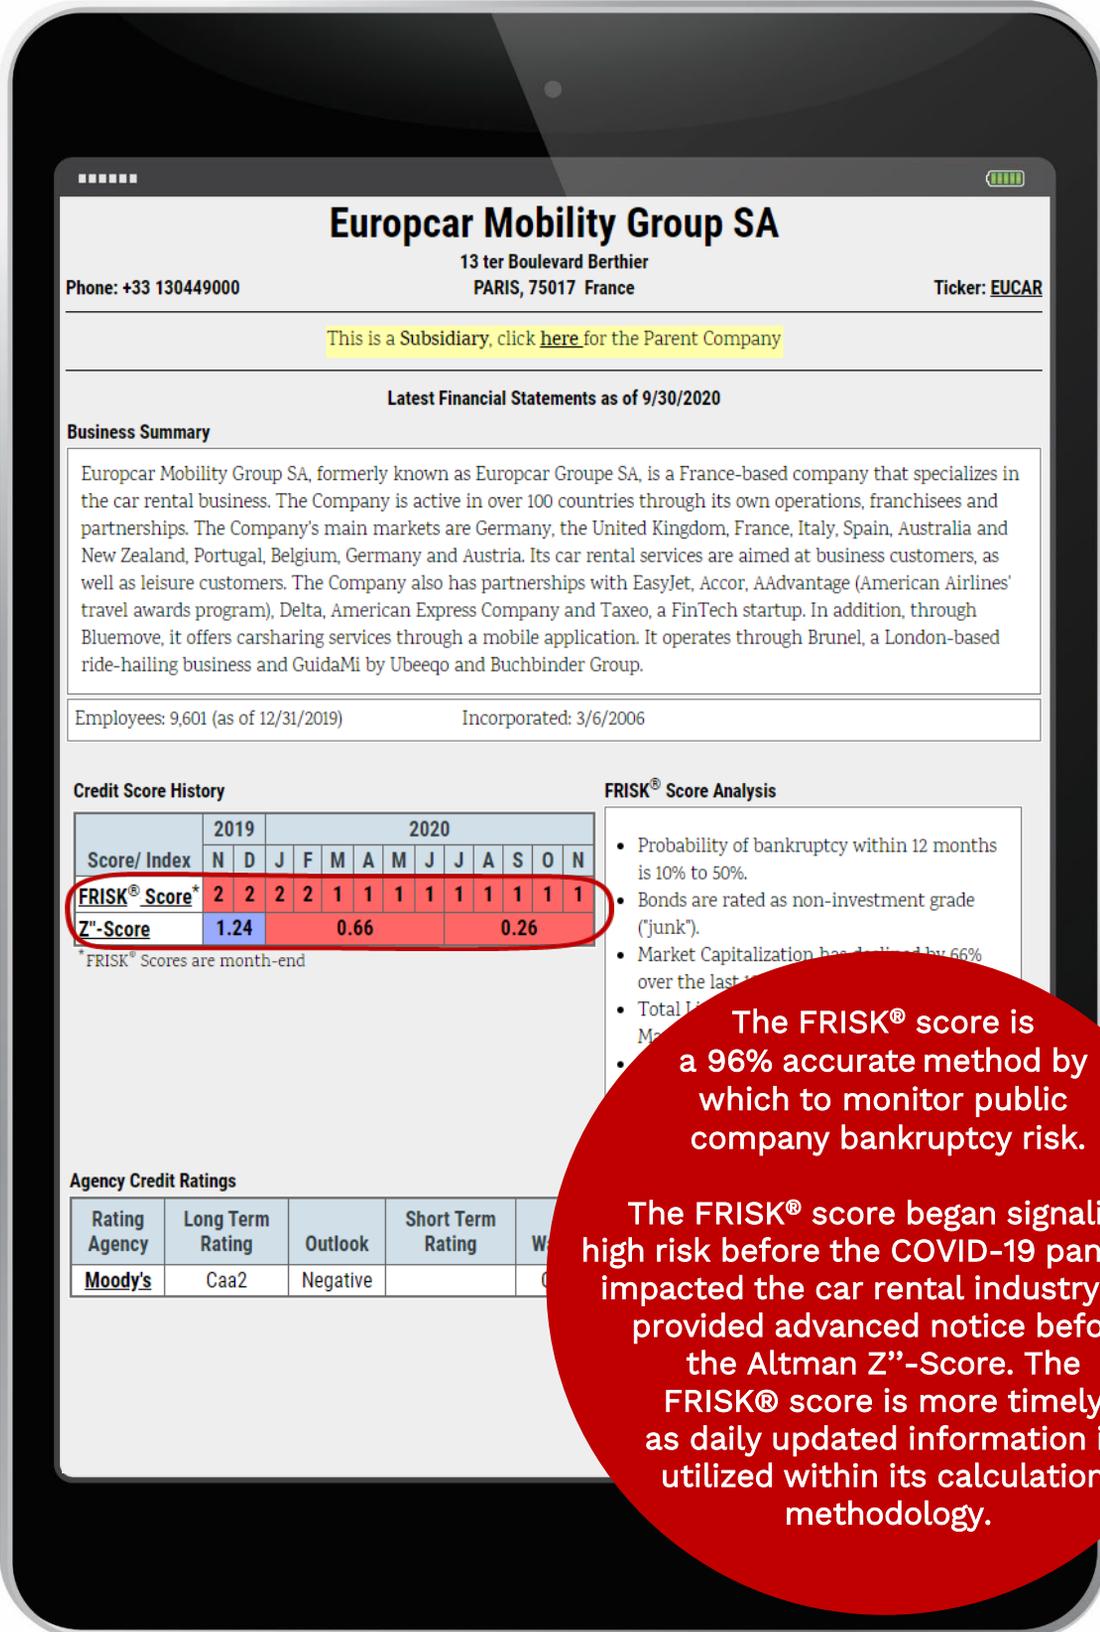

[Crowdsourcing](#) has enhanced the accuracy and timeliness of the FRISK® score. We collect and analyze data patterns from thousands of CreditRiskMonitor® subscribers, including professionals from more than 35% of the Fortune 1000 and other large corporations worldwide.

**The crowdsourcing advantage is even more powerful in our FRISK® score since many of the professionals who use our service are credit managers:**

- Credit managers control one of the largest sources of working capital going into a company
- They are not held to the same “Fair Disclosure” restrictions that prevent non-disclosed information sharing on public companies
- Credit managers use a variety of non-public information sources such as their own company’s management and sales representatives to be alerted to concerns in a public company’s performance
- It is commonly known credit managers confidentially share information with other credit managers, thus collectively, their behavior helps to provide advanced insight to financial problems in public companies
